

Dear .....

Thank you for keeping your tooth clean and safe and putting it under your pillow until I could collect it from you.

Soon there will be a new adult tooth taking its place and you must remember to brush it well and keep it free from all nasty cavities.

I don't collect adult teeth as they are not meant to fall out, but I shall come back again to take your next milk tooth when you put it under the pillow.

So, take care and look after your teeth, brush them twice a day and eat healthy food!

See you soon.

Love from,

The Tooth Fairy
